

IN THE CLAIMS

Please amend Claims 1-4, and add new claims 5-10 as follows:

SJN/BY

1. (Currently amended) An identification label kit for pipes comprising an identification tag having a one-piece rigid substrate body having an outer wall of varying height around the entire side perimeter of said tag, raised indicia for identifying said pipe located on an upper flat surface, an arcuately shaped lower region on two opposing

S CB

walls, and a lower edge located on the bottom of said tag for matingly attaching said tag to the corresponding outer surface of a pipe, by the application of an adhesive bonding agent applied to said lower edge, prior to placement of said identification tag on the pipe; and

an adhesive bonding agent for application to said lower edge of the identification tag, prior to placement of said identification tag on said pipe.

2. (Currently amended) The kit according to claim 1, wherein said identification tag comprises PVC polyvinyl chloride.

3. (Currently amended) The kit according to claim 1, wherein said adhesive bonding agent comprises PVC polyvinyl chloride cement.

4. (Currently amended) The kit according to claim 1, further comprising a PVC polyvinyl chloride pipe cleaning agent.

JBL
5. (New) An identification label kit for pipes comprising:

an identification tag having a one-piece rigid substrate body having an outer wall of varying height around the entire side perimeter of said tag, said outer wall comprising a first pair of opposing sides and a second pair of opposing sides, said identification tag having indicia for identifying said pipe located on an upper flat surface, an arcuately shaped lower region on said first pair of opposing sides of said outer wall, and a lower edge located on the bottom of said tag for matingly attaching said tag to the corresponding outer surface of a pipe; and

CH
an adhesive bonding agent for application to said lower edge of the bottom of the tag, prior to placement of said identification tag on said pipe.

6. (New) The kit according to claim 5, wherein said indicia of said identification tag is raised indicia.

7. (New) The kit according to claim 5, wherein said first and said second pair of opposing walls further comprise lower edges for matingly attaching said tag to the corresponding outer surface of a pipe.

8. (New) The kit according to claim 5, wherein said identification tag comprises polyvinyl chloride.

9. (New) The kit according to claim 5, wherein said adhesive bonding agent comprises polyvinyl chloride cement.

CPA

10. (New) The kit according to claim 1, further comprising a polyvinyl chloride pipe cleaning agent.
